About Me

A technology enthusiast, looking forward to avail opportunities and work on challenging assignments.

Experience

Accenture Solutions Pvt. Ltd. 01/2022 - Present

AI/ML Computational Science Analyst

As part of AI LLM Center Of Excellence team we work on different POC's and implement various use cases using OpenAI, NLP and other AI/ML solutions and productionize it.

Vicevio 10/2020 - 11/2020

Flutter Developer Intern

Worked on their social media application built using Flutter, solved many bugs, enhanced the UI and implemented the functionality of multi-theme to the application using Flutter.

Innovaskill Technologies Pvt. Ltd. 08/2020 - 09/2020

Intern

During this internship I was exposed to the various activities of Machine Learning and implemented Regression models for Melbourne housing dataset and Classification models for Mushroom dataset.

Projects

Multi-purpose Dynamic Face Recognition System

Developed a python based project which will recognise the face of the person in the live video feed and a new person can also be added to the system using an Android/IOS flutter application connected to AWS and integrated it with a Serverless web application from which admin can also delete the person's details.

AI-Powered Hourly Attendance System

Developed an application that capture the images of a class and using AWS Rekognition Service it recognizes the student's faces and also updates the attendance automatically in DynamoDB and built a web-based dashboard to visualize all the student's attendance information.

Flutter Application

Built an android application which is used to click images and store the clicked images in the AWS S3 bucket and then use the those images in a python program.

Covid-19 Dashboard

Designed a website on Covid-19 cases all around the globe and created the dashboard using Tableau which visualizes the data.

Education

Computer Science and Engineering

2021

Visvesvaraya Technological University CGPA: 8.8

Skills

- C programming
- C++
- Java
- Python
- HTML
- JS
- CSS
- MySQL
- PostgreSQL
- Firebase
- Fauna DB
- Snowflake
- ETL(Alteryx)
- Android/IOS
- Flutter
- Ionic
- AI/ML
- Cloud(AWS, Azure, GCP)
- GIT
- GenAI
- Azure OpenAI
- Vector Database
- Natural Language Processing(NLP)
- RAG
- Langchain

Languages

English | Hindi | Kannada

Achievement

- Participated in the **GUINNESS WORLD RECORD** for the "Largest online photo album of people displaying a digital certificate" by ACCENTURE.
- Successfully completed **Google Cloud Ready** facilitator program by Google.
- Won National Level **DEVELOPTHON** (Hackathon) 2020 - Code for Social Impact by Deshpande Startups.

Certificates

- Microsoft certified Azure Developer Associate
- Google Cloud Certified Cloud Digital Leader
- Microsoft certified Azure Fundamentals
- Microsoft certified Azure Data Fundamentals
- Automation Anywhere certified Advanced RPA Professional 2022
- Essential 101: AWS Cloud Computing by LetsUpgrade certified by NSDC
